

Antilia Tec Pack

Advanced Packaging Solutions for Global Excellence

About Us

Antilia Tec Pack is a pioneering company specializing in advanced packaging solutions designed to preserve freshness, enhance shelf life, and protect products across global supply chains. With a deep commitment to innovation, quality, and sustainability, we provide tailored solutions that meet the dynamic needs of industries ranging from fresh produce exports to processed food, non-food, and industrial applications.

Backed by years of expertise, research-driven development, and global market knowledge, Antilia Tec Pack has become a trusted partner for exporters, growers, and manufacturers who seek packaging solutions that not only safeguard product quality but also reduce losses and optimize logistics.

Vision

To redefine global packaging standards by offering smart, sustainable, and performance-driven solutions that empower businesses to deliver products of uncompromised quality worldwide.

Mission

- • To minimize food wastage through innovative postharvest packaging technologies.
- • To deliver high-performance packaging films and laminates that ensure safety, hygiene, and extended product life.
- • To innovate with sustainability at the core, designing solutions that balance performance with environmental responsibility.
- • To create long-term value for customers through partnership, customization, and global support.

Our Expertise

Antilia Tec Pack stands at the intersection of science, technology, and global trade. We continuously invest in research and field trials to ensure our packaging performs under real-world supply chain conditions. From the farm gate to the final consumer, we enable seamless protection of goods while optimizing logistics efficiency.

Key Capabilities:

- ▶ Advanced knowledge of Modified Atmosphere Packaging (MAP) technologies.
- ▶ Specialized films for fresh produce, frozen foods, processed products, and industrial goods.
- ▶ Expertise in shelf-life extension trials and validation studies.
- ▶ Global supply chain support with export-compliant packaging.
- ▶ Strong R&D foundation for customized packaging development.

Our Product Portfolio

Fresh Produce Packaging

- MAP Bags & Liners – Extend shelf life of mangoes, vegetables, and other perishables.
- Microclimate™ Packaging – Ensures optimal respiration and freshness during transport.
- [Discover more solutions for fresh produce packaging.](#)

Barrier Films & Laminates

- High-Barrier Films – Protect against moisture, oxygen, and aroma loss.
- Nano-Engineered Films – Designed for superior strength and barrier performance.
- Retortable Films – Safe, reliable solutions for heat-processed foods.

Lidding & Specialty Films

- Easy-Peel & High-Performance Lidding Films for food trays and containers.
- Customized Films for non-food and industrial packaging requirements.
- Hot-Fill Bags & Specialty Packs tailored for demanding applications like bitumen and chemicals.

Global Presence

Antilia Tec Pack serves clients across Asia, Europe, the Middle East, and Africa, building trust through consistent quality and innovation. Our solutions are relied upon by:

- Exporters of mangoes, fresh fruits, and vegetables
- Food processors & manufacturers
- Industrial product suppliers

We ensure every solution meets international standards, enabling seamless export and long-distance transportation with minimal losses.

Commitment to Sustainability

Sustainability drives every innovation at Antilia Tec Pack. Our packaging is engineered to:

- Reduce food wastage by extending shelf life.
- Optimize container loads for efficient logistics.
- Minimize environmental impact with recyclable and eco-conscious solutions.
- Support circular economy goals of global clients.

Why Choose Antilia Tec Pack?

- ✓ Proven track record in reducing postharvest and supply chain losses.
- ✓ End-to-end packaging expertise – from design to delivery.
- ✓ Strong R&D foundation backed by field trials and customer validation.
- ✓ Custom solutions tailored to product, process, and market.
- ✓ A partner committed to quality, innovation, and sustainability.
